🌟 Advanced Projects — Coming Soon!

Hello Innovator 🔧✨

The **Advanced Projects** are the next big leap in your journey! These will combine multiple components, sensors, and logic to create **real-world applications** — perfect for those ready to go beyond the basics.

Before that, make sure you complete the Basic & Intermediate Projects to build a strong foundation! 🚀

🗓️ Planned Timeline:

- **Starting July 2026** → First Advanced Projects.
- More projects will be added step by step after that.

✨ Bonus for You:

Every new project will be **free for our existing users**.
Simply use the **same link** you used to download this content, and you'll always have the latest version.

Thanks for being part of our learning community 💙
